Order form change

To reduce the risk of error when processing orders, the column for your order quantity is now next to the Cod(e) number. As before please write the quantity of prints required.

Don't forget you can order any other photos at the discount price of 80p.

If you would like to order other photos at the discount price you can add them to your PhotoNews order PROVIDED you can see the photo on our web site.

To order write the Cat# and ident (registration) on the back of the PN order form and add the payment to your PN total.

Please spread the word!

NA3T is run along not-for-profit principles but maintaining the correct temperature and humidity in the archive and paying for the web site all require funding. Don't worry, I'm not about to start increasing our prices but it would be nice if I could increase our advertising. To do this I need to sell a few more photos each month so, if you know of anybody who might be interested in buying our photos, either directly or via yourself, please spread the word.

Copyright theft

There are a small number of people out there who are making a lot of money at our expense by illegally copying our photos and selling them on eBay, on CDs or as prints at collector's fairs and shows. We estimate that known sales of such bootleg copies on eBay have netted one seller in the region of £500 last year! Two eBay sellers have been given warnings by Trading Standards and know what will happen if they sell any more bootlegs but it seems that no sooner do we stop one person than another two spring up. So please, if you see or hear of anybody selling bootleg copies of our photos on eBay or anywhere else, please let me know who, where and when.

PhotoNews distribution

Please feel free to forward copies of PhotoNews to anybody else that may be interested as every little helps.

Bob, Worthing 30th January 2012
