## **Order form change**

To reduce the risk of error when processing orders, the column for your order quantity is now next to the Cod(e) number. As before please write the quantity of prints required.

## **Don't forget you can order any other photos at the discount price of 80p.**

If you would like to order other photos at the discount price you can add them to your PhotoNews order PROVIDED you can see the photo on our web site.

To order write the Cat# and ident (registration) on the back of the PN order form and add the payment to your PN total.

## **Please spread the word!**

NA3T is run along not-for-profit principles but maintaining the correct temperature and humidity in the archive and paying for the web site all require funding. Don't worry, I'm not about to start increasing our prices but it would be nice if I could increase our advertising. To do this I need to sell a few more photos each month so, if you know of anybody who might be interested in buying our photos, either directly or via yourself, please spread the word.

## **Copyright theft**

There are a small number of people out there who are making a lot of money at our expense by illegally copying our photos and selling them on eBay, on CDs or as prints at collector's fairs and shows. We estimate that known sales of such bootleg copies on eBay have netted one seller in the region of £500 last year! Two eBay sellers have been given warnings by Trading Standards and know what will happen if they sell any more bootlegs but it seems that no sooner do we stop one person than another two spring up. So please, if you see or hear of anybody selling bootleg copies of our photos on eBay or anywhere else, please let me know who, where and when.

## **PhotoNews distribution**

My thanks to those who have opted to receiving PN via the Internet. If you have received this copy through the post but do have Internet access it would be great if we could send it to you as a eMail attachment or if you could simply view it on our web site. Either way it will save us a small fortune. To change to on-line PhotoNews please eMail me at [photonews@transportphotos.com](mailto:photonews@transportphotos.com) .

Finally, a reminder that all of the photos are (should be!) available to view on our web site. Just go to the Road & General section and enter the Cat# or registration in the search box
