### Canvas on wood frame

Our canvas stretch is a great way to display your images for home, workplace or exhibition.

Our canvasses come to you with corner wedges to allow for tensioning, the back edges carefully taped and the finished product strung ready to hang.

Normally our canvas edges will be white but you can specify any colour you wish or you can choose to have the image wrap around the edge.

### Giclée print

These unmounted prints are made using fine art photo rag, a smooth, heavy weight paper that is excellent for both colour and black & white images. We use only genuine Epson inks that, combined with the archival quality of the paper, have the ability to produce stunning reproductions.

### MDF

"Woodblock" mounting, using 'Medium Density Fibreboard' gives a smart and simple look to finished prints. The MDF depth can be specified at 12 or 18mm, giving different profiles (and weights) to your photo.

Ideal for home or office use, our professional quality photo print is mounted then sealed onto the woodblock, with either a sawtooth hanger or split battens added to the rear.

### Terms
